

-----GENERALNEWS-----

Hi All

The first new Mailchimp mail with the new Groove releases was send this week. Looked like a success, many liked the layout (although we are still thinking of changes like 2 columns etc.) But in general many liked it. Called it fresh and pleasant. Thanks for all the comments.

Over 300 of our receivers of E-News have already taken the time to give us the okay to transfer them to the mailchimp account! So if you want to receive E-News after December 15 then don't forget to do this!!

**DON'T MISS OUT ON E-NEWS!!**

Yahoo mail is closing down.

This means that we needed to find a new mailing service for E-News.

We have spend the last weeks to set up this in Mailchimp.

Work now is to get all who like and love E-News in this system.

IF you want to keep E-News coming to you then please drop me a mail so we can transfer all to Mailchimp.

We see many new possibilities here (pictures, Photos and layout!)

So please let me know!

**Däcker - Pareidolia (cd)**

<http://www.groove.nl/index3.html>

Special attention for this album from Desert Island Music.  
The label of Remy Stroomer.

“Pareidolia” is the debut album by Däcker. Däcker is the alter ego of Dutch musician Peter Dekker.

### THE CONCEPT

Pareidolia is the tendency for incorrect perception of a stimulus as an object, pattern or meaning known to the observer, such as seeing shapes in clouds, seeing faces in inanimate objects or abstract patterns, or hearing hidden messages in music. The five extensive album tracks (varying from 5 to almost 25 minutes, exposing hypnotical and dreamy sceneries full of analog sounds, sequencers, bleeps and storytelling leads) refer to pareidolia from space. Including the “Female on Mars”, which is displayed on the cover artwork.

### THE MUSIC

The basis for the music on this album was improvised/created/recorded during a beautiful Sunday in August 2018. Initially recorded on cd-r by Peter Dekker, spontaneously and in one take, the finalized registrations offered no opportunities to remix this music. When Dutch musician and label owner Remy Stroemer heard the music, he offered to enhance these recordings. The project originally entitled “Sessions 2018”, was revisited entirely the months after. Maintaining the original structures and feeling as much as possible, Remy added his personal touch and musical vision to it.

### THE COMPOSER

Dutchman Peter Dekker (1973) remembers to have music in his head constantly since he was a 4-years old boy. It takes until his 9th when he comes up with his first compositions. In first instance Peter takes piano lessons and writes piano pieces, and as soon as he obtains his first keyboard on his 15th birthday, he starts to make electronic music. Now, 32 years later, Peter owns more than 50 electronic music instruments, with which he composed and recorded an uncountable amount of music. Peter could be working for days and even weeks on real compositions, but above all he prefers to create music in the most direct and spontaneous way: just sit and play. He tries to reflect his widely oriented musical taste and interests into his compositions, especially those styles you wouldn't associate with electronica in the first place, like rock, jazz and Latin.

Main inspirators include Vangelis, Nova / Peru, Jean Michel Jarre, Neuronium, Ed Starink and Jun Fukamachi. With his alter ego Däcker, Peter explores a musical style which also has obvious links with a certain electronic music movement from Germany. Peter Dekker sees himself as a composer using synthesizers for the creation of his music, rather than a synthesizer composer or musician of electronic music.

---

**GR-298 - Eloy Fritsch - Cosmic Light**

<http://www.groove.nl/jump2.php?artnum=GR-298>

Eloy Fritsch performs an electronic music that evolves between Vangelis' ambient & impressionist electronic, Jarre's melodic wonderful sequencer driven songs, Kraftwerk's inventive songs and the synthesised Progressive rock of masters such as Rick Wakeman. Nevertheless, Fritsch has found his own style within melodic Electronic Music framework. The compositions are very melodic and emotive, with multi-layered instrumental textures/voicings.

**GR-299 - Synth.nl & Ron Boots**

<http://www.groove.nl/jump2.php?artnum=GR-299>

This is our second album together and just like our first album from 2010 called 'Refuge en Verre' we recorded this music during a family holiday. This time we spend a whole week with our families in Bork Havn in Denmark. During the day we spend time with our families and in the evening we improvised in the temporary studio we build in a corner of the holiday house. We didn't really prepare anything in advance so all music was recorded from live improvisation sessions during that week.

The music was recorded in 2012, but due to personal circumstances we didn't get around to finishing the album. But we both still had the desire to release it because we think the music we created there was special. So in 2020 we listened to the music again and selected the pieces we liked the most and decided we had to release it for you to

enjoy. We both (Michel a bit more then me (Ron) started working individually on the tracks in our own studios and in the end we worked in Ron's studio to finalize the end mix and the mastering.

The album again is a symbol of our friendship. We met in 2006 during a Synthesizer Meeting organized by the Dutch 'Synth Forum' were we started talking about synthesizers and found out we shared the same fascinations. As a result Michel signed up as Synth.NL in 2007 with Groove Unlimited. We became good friends after that, and we visit each other on a regular basis. Not only to for music but also to enjoy a good meal or just a good talk.

The album is called 'BorkHavn' simply because that is were the music was recorded. The tracks were inspired by the events we experienced during the day. Sometimes it was the beautiful nature we enjoyed sometimes just the feeling of the moment.

We hope you will enjoy this album. At least we had a great time creating the music and working on this album 8 years after recording it. It brought back good memories and only made our friendship stronger.

This album was released by Groove Unlimited in 2020 in the year we had no E-live festival unfortunately due to the Corona virus. We would like to dedicate this album to all the victims of this nasty pandemic. At this time we hope it will go away soon so everything can get back to normal.

**KLAUS SCHULZE - Kontinuum**

Sometimes history manages to repeat itself. Exactly 30 years ago I first played a Klaus Schulze LP to my father, Mirage. "I think that record sticks" was his answer to the repeating sequencer sounds. When I was playing the opening track Sequenzer (From 70 To 07) of the new album Kontinuum, I received a visit from people unfamiliar with the music of the German. They had the same reaction as my father had at the time. Repeating history is also exactly what Schulze had in mind

with this album. On other recent records he has also tried to match the atmosphere of his records from the second half of the seventies, but Kontinuum also sounds almost exactly as it was then. The aforementioned first piece is a tribute to that time, Euro Caravan is dedicated to now and Thor (Thunder) to the future. Sequenzer's title (From 70 To 07) is well-liked. The long-held sequencer run could have come from one of his legendary records from the said period. It is very atmospheric and relaxed and in the beginning it fascinates me quite a bit. Sometimes a calm string pad or solo will sound in the background but the sequencer will remain in the foreground. By the way, he keeps it on for a long time and for a moment my attention falls away, but I have had that before with Schulze. Euro (Caravan) starts again very quietly with strings. Then a relaxed sequence is added and a rhythm is created that fortunately never gets too busy. Only Schulze can make this kind of music. The third piece Thor (Thunder) is almost 32 minutes the longest track on the CD. Sequences can be heard here as well, but they do not surface as clearly as on the rest of the album. The rhythms are innovative. We can leave that to him as a former drummer (including from Tangerine Dream and Ashra Tempel). The whole remains in retro style. Sometimes we hear some samples of Arabic voices but it all falls within the proportions. This is clearly Schulze's best record for many years. The atmosphere is back!

### **TIM BLAKE - Caldea Music II**

Keyboardist Tim Blake has not made too many solo records in his career (I count seven). Caldea Music II from 2002 has passed me by. Don't expect Caldea Music I because it doesn't exist. Blake's Spanish colleague Neuronium had already released the album Caldea Music in 2000, so Tim chose this title. Caldea is a wellness center in Andorra with medicinal baths. Blake had arthritis in his hands and came for treatment. That helped and inspired him to make this music. Personally I think Blake only made one good record -New Jerusalem from 1978-. I honestly expected a new age album from Caldea Music II, but that is not too bad. It contains music that is in the middle between light proggy, the space sounds of his first two solo albums Crystal Machine and New Jerusalem and even a bit of folk. Caldea is a nice prog piece.

It returns later in a folky arrangement. Floating with Christian Boulé on glissando guitar and Across The Sea Of Dreams are great space songs. The 1970s revive here. Steve Hillage's System 7 is greeted in The Great Pool. Nice and floaty but with almost 20 minutes a bit too long for me because not enough variety. But overall satisfaction with this album dominates. Blake is allowed to make more of this kind of music from me.

SHIPPING:

Due to the fact that we use a special shipping service that provides the shipping of parcels etc we don't have to adjust the shipping prices at this moment. One of the reasons is that because of you our costumers we can keep these prices so low. With over 1500 parcels shipped last year we can stay in the lowest shipping prices!

I am glad we are one of the few suppliers of EM that did not have to raise their shipping prices. So for the 4rth year in a row they stay the same!!
