8'th solo album by Rene de Bakker came out after the Beyond Berlin album Epiphany. It is sequencer-based. All sounds come from hardware synthesizers, and this from both analog and digital equipment. The sequencer parts mainly come from modular systems, controlled by 6 different sequencers. All instruments are handmade. The cover art is a painting (acrylic paint on canvas) made by Rene de bakker. if you like the music, spread the word!
